

## **Records of the United States Medical Research and Development Project, Uganda**

**Title:** Records of the United States Medical Research and Development Project, Uganda, 1959-1969

**Author/Creator:** United States Medical Research and Development Project, Uganda

**Collection number:** 11

**Size:** 1 linear foot

**Bulk dates:** 1960-1964

**Inclusive dates:** 1959-1969

**Repository:** Walter Reed Army Institute of Research Archives, Gorgas Memorial Library, Silver Spring, Maryland, 20910, Telephone: 301-319-9554, Fax: 301-319-9929, Email: [gorgasill@amedd.army.mil](mailto:gorgasill@amedd.army.mil)

**Abstract:** The records include correspondence, reports, and photographs.

**Restrictions:** There are no restrictions on these records.

**Preferred citation:** Records of the United States Medical Research and Development Project, Uganda, Walter Reed Army Institute of Research Archives, Gorgas Memorial Library

**Status:** This collection is processed.

### **Historical note**

The Filarioid Diseases Project began in 1959 as a responsibility of the United States Army Medical Research and Development Command (USAMRDC). Professor Louis Van der Berghe, Director of the Institut pour la Recherche Scientifique on Afrique Centrale (IRSAC), invited the USAMRDC to investigate the epidemiological and epizootiological relationships of filarioid parasites and other tropical diseases. IRSAC was a quasi-governmental research institution located on the west shore of Lake Kivu and covered scientific investigations in the Belgian Congo. USAMRDC transferred responsibility of this overseas project to WRAIR on 30 June 1960. Political unrest during the transition from the colonial government to local rule in the Belgian Congo led the project officer CPT Donald L. Price to move his operations to Makerere College in Kampala, Uganda in July of 1960. Donald Price was welcomed by Makerere College and he quickly established a new laboratory in their medical school. Donald Price was succeeded by MAJ Norman Wilks in 1962 and LTC Dale Wykoff in 1966. The unit was disestablished in July of 1969.

### **Scope and content of the collection**

The Filarioid Diseases Project records include correspondence, reports, newsletters, and photographs. The bulk of the material is the correspondence.

### **Custodial History:**

Updated 16 March 2012

Four reports (Earl Fife, 1962; Wally Murdoch, 1967; Bryce Walton, 1968; and Dale Wykoff, 1968) were donated by COL Dale Wykoff by way of COL Robert JT Joy in 2003.

### **Processing information**

Processed by: Lara D'Agaro

Processing note: Original order was retained wherever possible. The correspondence files were originally arranged in reverse chronological order in the individual folders, but are now in chronological order. Monthly newsletters and annual reports were found in separate folders and they are maintained as a separate series. Exact duplicates have been removed and discarded. Most metal staples, paper clips and metal binders were removed. All records have been rehoused in acid-free folders. All of the photographs in series III were found in their own folder and have been maintained as a separate series. There are a couple of photographs in the correspondence series.

### **Arrangement of collection: The collection is organized as 3 series.**

Series I: Reports

Series II: Correspondence

Series III: Photographs

### **Detailed description of the collection**

#### **Series I: Reports, 1959-1963, 1968 (6 folders)**

This series includes monthly and annual reports created by Donald L. Price and an annual report created by Dale E. Wykoff.

Folder	Title	Date
1	Monthly Newsletters, 1959	
2	Monthly Newsletters, 1960	
3	Monthly Newsletters, 1961	
4	Annual Report, July 1961-June 1962, 1962	
5	Annual Report, July 1962-June 1963, 1963	
6	Annual Report, 1 July 1967-30 June 1968, 1968	

#### **Series II: Correspondence Files, 1959-1969 (19 folders)**

The bulk of the correspondence is between Project Officers Donald L. Price, Norman E. Wilks, and Dale E. Wykoff and the Director of the Walter Reed Army Institute of Research R.P. Mason and WRAIR Division Directors Geoffrey Edsall, Abram Benenson, and Robert Traub. There are some quarterly reports and newsletters mixed in with the correspondence when sent as enclosures. The general correspondence is arranged chronologically.
